MASTERS ABROAD: GLOBAL ADVANTAGE

ISBF students engage with a curriculum designed and directed by the London School of Economics and Political Science (LSE) or King's College London (KCL), both prestigious institutions, under the University of London (UoL). This strong academic foundation prepares them for top Masters programs at leading global universities. Graduates may be exempted from standardized tests like the GRE or GMAT when applying to select programs abroad, simplifying the admissions process for higher studies. The UoL degree also meets the 16-year education prerequisite for postgraduate studies in the US, Canada, enabling seamless transitions to advanced academic pursuits.

2ND YEAR TRANSFERS ABROAD

ISBF offers students the unique advantage of earning a globally recognized UK degree, with the option to transfer credits to prestigious universities worldwide, including London School of Economics (LSE). With seamless credit transfer and academic alignment, 15 ISBF students have successfully transferred to LSE in 2nd year, some with full scholarships, and many others to top universities globally.

2

MOUNTBATTEN PROGRAMME

ISBF, in partnership with the Mountbatten Institute, offers year-long placements at Fortune 500 headquarters in London and New York. Students gain hands-on experience in top roles, often leading to full-time offers in their Indian offices.

1

ATTEND 6 WEEKS AT LSE

All ISBF students attend the prestigious 6-week LSE Summer School after Year 1, with a 40% fee scholarship. Additionally, two full scholarships covering tuition and accommodation are available. Credits earned are fully transferable.

4

SCHOLARSHIPS

ISBF offers scholarships covering upto 50% of tuition, including merit-based, need-based, and diversity awards, with special consideration for PIO holders, women, and aspiring leaders in economics and finance

3

EXPERIENTIAL LEARNING

ISBF offers practical experience through case studies, live projects, internships, and expert talks. Students also gain skills in Excel, financial modeling, data analysis, and soft skills like communication and leadership, ensuring holistic career development.
